

Change your Tyres not Replace

WINTER TYRES

Add Winter Tyres & store your normal Tyres until the Spring

DO I REALLY NEED WINTER TYRES?

It has been proven that in winter conditions, on an icy road, driving at just 20mph winter tyres could stop your car 11 metres sooner than summer tyres - that could be the difference between an accident and not

Why not book your normal tyres into the 'Tyre Hotel' at **Days**, we label up your tyres and they will be safely stored till you make an appointment to re-fit them next year in the spring.

'Tyre Hotel' is at no extra cost, just the price of change over! And we'll store your winter tyres for next year, again absolutely FREE.

Days WINTER TYRE HOTEL
