simple maintenance

Light and robust with excellent
payload up to 1440kg

Meets all international safety
standards

The **Boxer Dropside** is covered
by a 3 year/ 100,000 miles warranty

Finance

Of course, once you've selected your vehicle, how you fund it is another important consideration. That's why we've developed a range of options. It's this combination of funding flexibility and vehicle choice that makes us number one for many businesses in the UK.

Our range of packages include:

Contract Hire

Designed for businesses that want fixed rental payments over a fixed period (usually 36 or 48 months), without the worry of depreciation or disposal. The rental is set on an annual mileage determined by you and provides Vehicle Excise Duty for the period of the contract. It can also include additional options such as

- Our Maintenance package, which covers full routine servicing, unlimited tyre battery and exhaust replacement (subject to normal wear and tear). This means you won't have any unexpected maintenance or repair costs

Contract Hire Plus

All the benefits of Contract Hire, plus in the event that your vehicle is subject to an insurance loss, your motor insurer may offer you a settlement figure lower than the amount required to settle your rental agreement. If you have a 'Plus' contract all this difference could be waived.

Finance Lease

Leasing is designed for businesses who want fixed rentals over a predetermined period, without eventual ownership and a tax efficient method of funding vehicles.

Passport Pro

Passport Pro is a 3 year purchase plan for vans which can be structured to suit your budget as only part of the vehicle is repaid over the terms of the agreement. At the end of the contract you have 3 options:

- Hand the van back with nothing further to pay (subject to condition and mileage)
- Pay the final payment and own the van outright
- Part-exchange the van for another new Peugeot.

Hire Purchase & Lease Purchase

These two products are designed to provide fixed-term funding with eventual ownership. You decide on the initial deposit and you can opt to have a balloon payment at the end of the contract to lower monthly payments. When all the outstanding payments have been made, the vehicle becomes your property.

Written quotations available on request from Peugeot Financial Services, Quadrant House, Princess Way, Redhill, RH1 1QA. Terms and conditions apply. A guarantee may be required. Business Users only. Over 18's only.

A Serious Approach to Environmental Challenges

iOn

The Peugeot ***iOn*** is the perfect solution if your daily journeys are among the 90% that are less than 38 miles. It's 100% electric, easy to recharge and has a range of 93 miles. And it's easy to recharge at home, at work or at a public service terminal. It's great to drive and has all the usual features drivers value – ABS and ESP, electric power steering and alloy wheels, as well as climate control and Peugeot Connect USB – but the really important thing is what you can save. The ***iOn*** is not only exempt from congestion charges, it also benefits from zero vehicle tax and zero BIK (benefit in kind) for Company Car drivers.

HYbrid4

Peugeot's first hybrid vehicle, the **3008 HYbrid4** is due to launch late 2011. It is based on the combined use of a diesel HDi 163 engine and an Electric Motor (37bhp), delivering 200bhp performance, yet 74mpg with CO₂ starting from 99g/km.

The world's first full diesel electric hybrid car delivers:

- CO₂ emissions: from 99g/km
- 200bhp
- 74.4mpg
- 4-wheel drive
- No road tax
